PROFESSIONAL SUMMARY

Healthcare-focused Data Analyst with 2+ years of experience in claims analytics, SQL-based reporting, and business intelligence dashboards. Skilled in SQL, Power BI, Tableau, and Advanced Excel for data cleaning, transformation, and KPI analysis. Experienced in analyzing operational datasets to identify inefficiencies, improve accuracy, and support data-driven decision-making.

WORK EXPERIENCE

Data Analyst – Healthcare Claims

Concentrix Daksh India Pvt. Ltd., Gurugram

Apr 2024 – Present

- Analyze 5,000+ monthly insurance claims using SQL to identify rejection trends, fraud indicators, and process inefficiencies.
- Develop and maintain Power BI dashboards tracking TAT, approval rates, rejection reasons, and team productivity KPIs.
- Automated Excel reporting processes using Pivot Tables, XLOOKUP, and advanced formulas, reducing manual effort by 30%.
- Conduct root cause analysis on rejected claims to improve processing accuracy and reduce rework.
- Collaborate with operations and quality teams to define measurable KPIs and improve workflow efficiency.

Data & System Support Analyst

KNB Infotech, Noida

Apr 2023 – Mar 2024

- Extracted and analyzed system performance and user incident data using SQL queries and Advanced Excel.
- Prepared SLA compliance reports and service performance dashboards for client reporting.
- Built Power BI dashboards to monitor downtime trends, ticket resolution time, and recurring technical issues.
- Identified high-frequency incident patterns and recommended corrective measures to reduce repeat system failures.
- Supported database validation and ensured data accuracy for reporting and operational monitoring.

Operations & Data Reporting Analyst

Asha Hospital, Mainpuri

2019 – 2023

- Managed structured patient and operational datasets for reporting and administrative analysis.
- Generated daily, weekly, and monthly MIS reports for hospital leadership.
- Conducted trend analysis to identify workflow bottlenecks and improve patient service efficiency.
- Coordinated with medical and administrative teams to maintain data accuracy and compliance.

PROJECTS

Healthcare Claims Analytics Dashboard (Power BI + SQL)

- Developed interactive dashboard to monitor TAT, approval ratio, rejection rates, and team productivity.
- Used SQL for data extraction and aggregation.
- Applied Excel for preprocessing and KPI calculation.
- Enabled performance visibility for operational decision-making.

NGO Informational Website

Developed a fully responsive multi-page NGO website using HTML, CSS, and JavaScript.

CERTIFICATIONS

Data Analysis | SQL, Tableau, Power BI & Excel | Real Projects

Business Analysis Fundamentals

Business Analysis Techniques

Cybersecurity Fundamentals

'O' Level Certification – NIELIT (2018)

TECHNICAL SKILLS

Programming & Data Analysis

- SQL (Joins, Aggregations, Subqueries, Filtering)
- Python (Pandas, Matplotlib – basic)

Data Visualization

- Power BI (Dashboard Development, KPI Tracking)
- Tableau

Data Tools

- Advanced Excel (Pivot Tables, XLOOKUP, Power Query, Conditional Formatting)

Other Tools

- Jira
- Lucidchart
- Draw.io
- MS Office

CORE COMPETENCIES

Healthcare Claims Analytics

Data Cleaning & Transformation

KPI Reporting

Dashboard Development

Root Cause Analysis

Process Improvement

EDUCATION

Bachelor of Science

Dr. Bhimrao Ambedkar University

2019
